I, _____, acknowledge and take full responsibility of the fact that the fence we are wishing to construct on our lot will have a setback on the North side from the property line of 1' 10" and a setback on the South side of 2' 8". The setback for the fence on the back of the property extends to the property line and connects with the fence constructed at the property directly behind _____.

_____ have reached out to the vacant lot owners on both sides of the property to ask permission for the variance and have not heard a response. Because of the urgency with the fence being constructed, they have moved forward with their project prior to receiving ACB approval. This affidavit will act as an approval from the ACB for the construction of the fence.
